SDG Mini-Conference

Poster Rubriek

Please visit each poster during assigned sessions and spend a few minutes with the presenter asking them to briefly explain their research and ask them questions regarding their findings and methods used. You will assign a single score (1-10) for each poster and mean scores across all reviewers will determine the best poster of the SDG mini-conference.

Please use the following guidelines.

(1) Content:

a. Are the components of the poster organized in a logical flow (from research question through conclusion)?

b. Does the dataset help answer the research question?

c. Has the data been sufficiently explored (summary statistics, histograms etc.)?

c. Does the conclusion follow logically from the analysis performed?

d. Are limitations discussed (e.g., lack of appropriate data)?

d. Are relevant sources referenced?

(2) Visual:

a. Are the components of the poster balanced across the space (not too much text etc.)?

b. Are the data visualizations used relevant to the research question?

c. Are the data visualizations used labelled appropriately?

c. Do the data visualizations used contain legends where appropriate?

(3) Oral:

a. Did the presenter sufficiently explain the poster without using jargon?

b. Did the presenter show enthusiasm about their topic?

(4) Impact:

a. Does this poster lead to new insight and stimulate you to discover more about the chosen SDG?
